- 2 – 3/8" x 7/8" Button head screws
- 1 – 7/32" Hex Key

### Components included:

- 2 – Upright Legs
- 2 – Slings
- 1 – Tool Bar
- 2 – Feet
- 1 – Broom
- 1 – Poker
- 1 – Shovel

## ASSEMBLY AND INSTALLATION INSTRUCTIONS

### Rack Assembly

- 1) Slip the floor glides over the ends of the legs
- 2) Position the two upright legs pieces over the legs so they form a square. Attach the pieces together using the four 3/8" x 5/8" button head screws. The screws should be inserted from the top, tighten screws finger tight only at this point.
- 3) Remove the button head screw from one side of each upright holding the sling (also known as the kindling holder). Discard the screws. Loosen, but do not remove the screws on the opposite side.
- 4) Attach the tool holder to the outside of the uprights using the 3/8" x 7/8" screws. Screws need to be installed from the outside through the tool holder, through the upright, and into the sling / kindling holder. Repeat process for the other upright.
- 5) Square up rack and tighten ALL screws at this time.
- 6) Hang tools on tool holder hooks.

**WARNING:** It is important that your hearth rack is assembled correctly. If the unit is assembled or used incorrectly, it could become unstable and collapse, possibly causing injury.
