

SAFETY RECALL

Jetboil® Gas Camping Stoves Personal Cooking System (PCS) and Group Cooking System (GCS)

In some units sold since June 2008, tight screw threads in the valve can allow gas to leak and possibly ignite.

Personal Cooking System (PCS)

Group Cooking System (GCS)

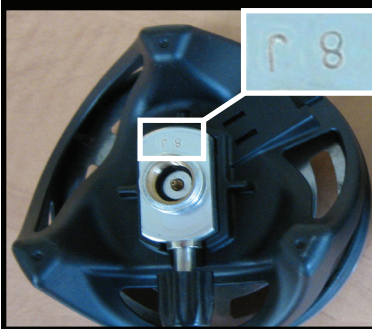

“A” Style Valve

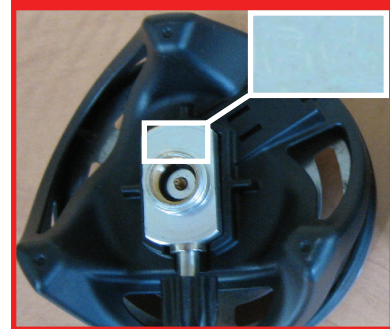

NOT-RECALLED VALVE

“C” Style Valve (stamped)

NOT-RECALLED VALVE

“B” Style Valve (unstamped)

RECALLED VALVE

Detach stove from fuel canister and turn upside down to see if your product is affected.

If you purchased a Jetboil product including either of the above pictured systems, with the recalled control valve (shown above), call Jetboil or visit www.Jetboil.com for directions regarding a factory exchange of your Jetboil product.
