

How to Care for Your L.L.Bean Fresh and Dried Wreaths

Handcrafted exclusively for L.L.Bean
and then shipped directly to you to ensure maximum freshness.

Upon Delivery

Cut the cable ties from the bottom of the box and remove item carefully. After unpacking, please allow the greenery and natural elements a few hours to relax into their normal, full shape.

It is normal for natural materials to shed during shipping. It is not a cause for concern.

Before Displaying

Please be sure to protect the surface your wreath rests upon from moisture damage and scratches. If you are not displaying right away, please store in a cool, dry place.

Tips for Responsible Disposal of Fresh Greens

Disassemble wreath to identify various elements that may be recycled (wire, metal, etc.). Natural plant material (fir, eucalyptus, pinecones, real berries, etc.) can be composted, provided they are not coated, heavily painted or glittered. Any non-recyclable or compostable elements should be discarded with general waste.

Fresh Greens

- If hanging indoors or out, mist every other day to keep greens fresh.
- To extend the life of the wreath indoors and out, keep out of direct sunlight.
- For indoor use, product will last six weeks to six months with proper care.
- When using outdoors, hang in a sheltered location.
- With proper care, wreath will last up to 6 weeks outdoors.
- When used outdoors in warmer climates, expect wreath to brown and dry out more rapidly.

Dried Greens

- Can be used indoors or outdoors in a sheltered location.
- To extend the life of the wreath indoors and out, keep out of direct sunlight and avoid moisture.
- For indoor use, product will last 6 weeks to 6 months with proper care.
- For outdoor use, product will last up to 6 weeks with proper care.
- When used outdoors in warmer climates, expect wreath to brown and dry out more rapidly.
- Do not mist.

Please keep out of reach of small children and pets. Small parts could become a choking hazard. All greenery used indoors should be kept away from heat sources, such as radiators, televisions and wood stoves.
